

Project Demo Planning

Date	6 July 2026
Team ID	
Project Name	A comprehensive measure of well being
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the HDI Predictor project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain what HDI is and why predicting it using ML is valuable	2	Chikali Sarika Anusha
2	Dataset & Preprocessing Overview	Describe the HDI dataset, indicators used, and data cleaning steps	3	Gollapalli Karishma Sharon
3	Model Building & Evaluation	Explain algorithm selection, training, and accuracy/evaluation metrics	3	Gollapalli Karishma Sharon
4	System Architecture & Flask Integration	Show how the trained model is served through the Flask backend	2	Kaparapu Ambika
5	Live Feature Demonstration	Run all three scenarios (Very High, Medium, Low HDI) live on the web app	5	Chitikela Parneeth
6	Q&A Session	Address audience questions on methodology, accuracy, and scalability	5	Devanaboina

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Set context on HDI and its importance for measuring human development
2	Solution Overview	Present the ML pipeline: data → preprocessing → model → Flask web app
3	Live Feature Demonstration	Enter sample country indicators for all three scenarios and show predicted HDI category
4	Q&A Session	Collect feedback and answer questions from evaluators/audience
